Calculate Your Savings with CoolCon3 Filtration System

Length of time Coolant Lasts   _____   (A) in weeks
Volume Per Coolant Change-out   _____   (B) in Gallons
Coolant Change-outs Per Year (52/A) =   _____   (C) Changes
Coolant / Water Ratio   _____   (R) Ratio
(C) x (B)   _____   (D) Gallons per Year

Waste Cost Per Year [*Disposal Cost per Gallon* $ _____ x (D) _____] =   **+** _____

Service Cost Per Year [*Coolant Changes* _____*Man-Hours x* $ _____*Hour x (C)* ____] =   **+** _____

Production Loss Per Year [*Change Time* _____ *x* _____*Production Value Per Hour x (C)*____] =   **+** _____

New Coolant Cost Per Year [*(D)/(R) = New Coolant Purchased Per Year*] =   **+** _____

Liability Ins. Cost Per Year [*Cost of Liability Insurance For disposal Per Year*] =   **+** _____

Chemical Cost Per Year [*Yearly Cost of Biocides and Chemicals for treatment of Coolant*] =   **+** _____

Total Expenses For Current Coolant Service and Usage   = $ _____

Maintenance Cost for BIOCON[R] System Per Year = $ (_____)
(Calculated as (1) particle filter per week + one **BIOCON**[R] Media pack each six months + Labor)

                               Total savings per year $ _____
